

2018 KAMM Annual Conference

Pre-Conference Day Activity

National Weather Service (NWS) SKYWARN® Storm Spotter Training

Monday, September 17, 2018

9:30 – 11:30 am (CST)

Lake Barkley State Resort Park

Join us for the SKYWARN® storm spotter class sponsored by KAMM! SKYWARN® storm spotters are part of the ranks of citizens who form the nation's first line of defense against severe weather. There can be no finer reward than to know that your efforts gave a community the precious gift of time--seconds and minutes that can help save lives.

Who Should Attend?

NWS encourages anyone with an interest in public service to attend the class. Storm spotter volunteers include police and fire personnel, dispatchers, EMS workers, public utility workers and other concerned private citizens. Individuals affiliated with hospitals, schools, churches, nursing homes or who have a responsibility for protecting others are also encouraged to become a spotter.

What will you Learn?

NWS has 122 local Weather Forecast Offices, each with a Warning Coordination Meteorologist. Joe Sullivan, NWS Louisville's Warning Coordination Meteorologist will be the trainer.

- Basics of thunderstorm development
- Fundamentals of storm structure
- Identifying potential severe weather features
- Information to report
- How to report information
- Basic severe weather safety

SKYWARN® is a registered trademark of NOAA's NWS.

Register: Please register for Pre-Conference Activities on the KAMM 2018 Conference webpage at <http://www.kymitigation.org/2018-kamm-conference/>
