

ANNOUNCING

KAMM CALL FOR ABSTRACTS

2023 KAMM CONFERENCE
MITIGATION IN THE MOUNTAINS
PRESTONSBURG MOUNTAIN ARTS CENTER

Mitigation in the Mountains will be a wonderful time to gather and celebrate eastern KY's resilience and determination to recover from one of the most devastating natural disasters to ever occur

in the Commonwealth. We invite our KAMM friends to take part in the annual conference and preconference activities by submitting an abstract for the 2023 conference program.

If you are a local, regional, or federal official, an agency, a consultant, a KAMM member, KAMM Sponsor or anyone else with an interest in mitigation or a success story to share, we invite you to be a part of our conference program. **We are particularly interested in hearing updates and/or success stories related to our conference theme and the Eastern KY flood disaster recovery process over the last year, but we also have a great need for all mitigation topics and resources.**

We need presentations for the following session types:

BEGINNER, INTERMEDIATE, OR ADVANCED

- Workshops (2, 3 or 4 hours)
- Concurrent Sessions (30 or 50 minutes)

We are counting upon you, our mitigation professionals, to provide presentations and workshops that showcase your mitigation knowledge, success stories, and expertise!

Multiple submissions for different topics are welcomed. Please complete an abstract form for each presentation abstract.

The deadline for submissions is June 9, 2023.

Link to [Mitigation in the Mountains Conference Abstract](#).

Selected presenters will be notified by **June 24**. The draft conference agenda will be sent to you for final review before it is posted on KAMM's website. We will ask for your presentation. Conference registration will open in early July. **Presenters are required to register for the conference.**
